

# MDS M820R RECYCLING TROMMEL

7" x 26" DRUM

LARGE RECYCLING PLANT

PERFECT FOR TREE STUMPS

HIGH PRODUCTIVITY

The M820R is a heavy duty recycling trommel ideal for concrete and demolition waste. Its heavy duty screens are 15 mm (0.6") thick steel. Apertures can range from 10 to 250 mm (0.4" to 10"). With 2 and 3 split options, this is the perfect trommel for heavy waste separation.
